News: GIBS Building Sprayed

Some people didn't like the gray concrete façade of our school building. Look what they have done! Is this a crime? Is this art?

Write a blog entry or a short newspaper article about the spraying of the GIBS-façade.

Watch the use of the tenses:

- **present perfect tense:** for news, for changes... for what has been done to make it as it is now.
- **past simple** for exact details: when/ who/where...(past events)

Check the rules in Newby (Changes and Completion, p. 85) and do exercise 85 in your yellow Newby before writing your text.
